

### Key Investor Information Document

This document provides you with key investor information about this fund. It is not marketing material. The information provided is required by law and is intended to help you understand the nature and risks of investing in this fund. We recommend that you read this information so that you can make an informed decision about whether to invest.

## ACTIAM Duurzaam Index Aandelenfonds Wereld

(ISIN-code NL0011309349)

This fund is managed by ACTIAM N.V., a subsidiary of Athora Netherlands NV.

### Objective and investment policy

#### Objective

The objective of ACTIAM Duurzaam Index Aandelenfonds Wereld is to approach the return of the MSCI World Index Net EUR, the benchmark ('Index'), as much as possible, while taking into account the applicable sustainability criteria. At the same time, the fund has an objective to invest sustainably.

#### Investment policy

- The fund aims to contribute to long-term sustainability objectives in the field of the environment and social development and good entrepreneurship
- The fund invests exclusively in three investment vehicles:
  - ACTIAM Duurzaam Index Aandelenfonds Europa;
  - ACTIAM Duurzaam Index Aandelenfonds Noord-Amerika;
  - ACTIAM Duurzaam Index Aandelenfonds Pacific.
- These investment vehicles invest in shares or certificates of shares of listed companies of their respective region and may also temporarily invest in Exchange Traded Funds and derivatives, exclusively in equity futures.
- Every month the allocation over the regions Europe, North America and Pacific within ACTIAM Duurzaam Index Aandelenfonds Wereld will be compared to the Index and when the deviation equals or exceeds the level of 1%, adjustments will be made to bring the portfolio back in line with the Index.
- The investment vehicles in which the fund invests are managed on the basis of a systematic investment policy by

investing in (certificates of) shares of companies included in the Index, and in addition to that comply with Environment, Social and Governance (ESG) criteria. No investments are made in shares of companies that are excluded from investment based on the general and additional exclusion criteria.

- The exclusion of companies leads to a deviation between the composite returns of the fund and the return of the Index. This deviation is minimised by investing the proceeds in shares of companies with similar risk characteristics as of the excluded shares and at the same time meet the applicable ESG criteria.
- In any case, the fund aims to maintain an ESG score that is higher than the Index and a water and CO2-footprint that is lower than that of the Index.
- The currency risks arising from the portfolio investments are not hedged into euros.

#### Entry and exit

You can buy or sell shares in this fund on any trading day via Euronext Amsterdam.

#### Dividend

The fund pays out a cash dividend at least once a year.

### Risk and return profile

The indicator is a measure of the volatility of the price and the return potential. This fund invests in equities and therefore its volatility is high.

Historical figures used to calculate the synthetic indicator are not necessarily a reliable reflection of the future risk profile. There is no guarantee that the risk and return category shown will remain unchanged. The category may change. The lowest category does not mean that the investment is without risk.

The following risks are essential to this fund:

- Equity risk: The risk of loss in value due to negative movements in share prices.
- Currency risk: Risk of depreciation in currencies other than euro.
- Active return risk: The active return risk is the risk that the fund's return may deviate from that of the benchmark. Active return risk applies to the fund as a result of the exclusion policy based on the general and additional exclusion criteria.

For a complete overview of the risks inherent in this fund, please refer to the supplement to this fund and the section on risk factors in the prospectus.

## Charges for this fund

The charges that you pay are used to pay for the costs of operating the fund, including marketing and distribution costs. These charges reduce the potential growth of/return on your investment.

Non-recurring charges that are charged before or after you have invested	
Entry charges	0,09%
Exit charges	0,04%
This is the maximum amount that can be deducted from your investment	
Charges that are deducted from the fund each year	
Ongoing charges figure	0,08%
Charges that are deducted from the fund subject to certain conditions	
Performance fee	n/a

In this context, the fund's entry and exit charges refer to the increases and decreases in the net asset value that are charged on a net basis at the time of entry or exit respectively. These are credited to the fund and compensate for the transaction costs incurred by the fund.

In addition to the abovementioned entry and exit charges charge by the fund, your financial advisor, bank or distributor may, for example, charge additional costs. Please contact them for information about these charges.

The Ongoing charges percentage is based on annualized charges for the period from May 18, 2020 to December 31, 2020, with the Ongoing charges being 0.15% to May 18, 2020. From May 18, 2020, the Ongoing charges are 0.08% per year. The percentage of the Ongoing charges figure may vary from year to year. It excludes portfolio transaction costs incurred by the fund.

More information about charges can be found in the prospectus of the fund.

## Past performance

	2016	2017	2018	2019	2020
Fund	11.3%	7.7%	-3.6%	30.5%	8.2%
Benchmark	10.7%	7.5%	-4.1%	30.0%	6.3%

Past performance does not guarantee future returns. The stated returns are after deduction of all charges, but before the effects of the income tax to be paid by the investor.

Currency: euro

On 28 August 2015 ACTIAM Duurzaam Index Aandelenfonds Wereld was admitted to listing on Euronext in Amsterdam.
