This document provides you with key investor information about this fund. It is not marketing material. The information provided is required by law and is intended to help you understand the nature and risks of investing in this fund. We recommend that you read this information so that you can make an informed decision about whether to invest.

ACTIAM Duurzaam Mixfonds Offensief

(ISIN-code NL0010579173)

This fund is managed by ACTIAM N.V., a subsidiary of Cardano Risk Management B.V.

Objective and investment policy

Objective

The investment objective is to achieve a return at least equal to the composite benchmark. The benchmark consists of: 25% iBoxx EUR Green, Social & Sustainability Bonds Corporates (TR), 65% of MSCI All Country World Index Net EUR and 10% GPR Sustainable Real Estate Index Europe.

Investment policy

- The fund has sustainable investment objectives. In that context, the Fund aims to comply with the Article 9 requirements of the Sustainable Finance Disclosure Regulation (SFDR) as established by the European Union.
- The fund invests on the basis of a sustainable investment policy and mainly in euro-denominated sustainable corporate bonds of predominantly investment grade quality and in listed global equities. In addition, the fund can, for a limited part, invest in listed European real estate companies and in other investment categories.
- Within the equities investment category investments are in principle made for 50% in the regional ACTIAM Duurzaam Index Aandelenfonds funds and 50% in ACTIAM Impact Wereld Aandelenfonds. The latter fund, in addition to the pursuing a financial return target, expressly intends to also achieve non-financial value, by among others investing in companies that actively contribute to the realization of the Sustainable Development Goals ("SDGs").
- Currency risks arising from the investments will be not hedged to euro.

- Companies, governments and institutions in the fund are assessed on their environmental, social and governance performance (ESG criteria). A negative assessment may lead to the exclusion of companies or debtors. In case of doubt, engagement can be initiated to encourage improvement. The investment policy makes use of ESG scores, whereby an ESG score is assigned for all investments of the Fund.

The fund aims for an optimal allocation of the various investment categories. On the basis of expected market developments, the fund can deviate from the neutral weightings. The table shows the permitted deviations.

| | Minimum | Neutral | Maximum |
|------------------------|---------|---------|---------|
| Equities | 55% | 65% | 75% |
| Real estate | 0% | 10% | 20% |
| Bonds | 15% | 25% | 35% |
| Bonds (short duration) | 0% | 0% | 10% |

Risk and return profile

The indicator is a measure of the volatility of the price and the return potential. The Duurzaam Mix funds invest in different asset classes, with Offensief the emphasis is on equity investments, the fund therefore has a fairly high volatility.

Historical figures used to calculate the synthetic indicator are not necessarily a reliable reflection of the future risk profile. There is no guarantee that the risk and return category shown will remain unchanged. The category may change. The lowest category does not mean that the investment is without risk.

The following risks are essential to this fund:

- Equity risk: The risk of loss in value due to negative movements in share prices.
- Interest rate risk: Interest rates may rise due to economic developments or market movements. This means a decline in bond prices.
- Currency risk: Risk of depreciation in currencies other than euro.

For a complete overview of the risks inherent in this fund, please refer to the supplement to this fund and the section on risk factors in the prospectus.
