

Fund Profile

ACTIAM Impact Wereld Aandelenfonds invests in liquid equities of listed companies from Europe, North America, Asia and Pacific and emerging countries. The investment objective is to achieve a return that is, on the basis of a three year period, at least equal to the return of the benchmark. In addition to pursuing a financial return objective, it is expressly aimed to also add non-financial value. Especially by investing in companies that actively contribute to the Sustainable Development Goals ("SDGs") such as adopted by the United Nations (UN). At the same time a negative impact on the planetary boundaries is limited, such as specified by Stockholm Resilience Center in Rockström et al. (2009).
