ACTIAM (L) Sustainable Euro Fixed Income Fund P DIS EUR

(ISIN-code LU1892569572)

Objectives and Investment Policy

Investment objective

- The Fund aims to obtain a return, based on a three-year assessment period, which is at least equal to that of the composite benchmark which is based on 50% of the iBoxx EUR index 1-10 Index (TR) Sovereign and 50% of the iBoxx EUR index Non Sovereign Index (TR) the 'Benchmark'.
- The minimum requirement is that the portfolio is composed in such a way that the ESG score of the Fund portfolio will at all times be at least higher than the ESG Score of the Benchmark.

Investment policy and strategy

- The Fund predominantly invests in fixed income instruments from issuers that have an adequate credit quality, implying that ratings assigned are of investment grade quality. The credit ratings of the leading rating agencies (Standard & Poor's, Moody's or Fitch) are used when assessing the credit quality of debtors and assets.
- At least 90% of the Fund's net assets will be invested in bonds or other transferable fixed income debt instruments with a minimum average credit rating of at least 'BBB-'. In addition, up to 10% of the Fund's net assets may be invested in bonds and other transferable fixed income debt instruments with a lower average credit rating.
- In addition to the rating restrictions applicable to individual debtors, a minimum average rating restriction will also apply at the level of the investment portfolio of the Fund. In this context, the minimum average rating of the portfolio must

at least be 'A-'. The Fund may use financial derivatives in order to procure efficient portfolio management and add value. Derivatives may be used to hedge risks and to take active market positions. In addition, derivatives may be used to limit transaction costs that would otherwise be incurred in case market exposure has to be built up or phased out immediately, when investors join or leave the Fund.

- In addition to the minimum requirements regarding ACTIAM's ESG policies, all issuers in the investment universe that constitute the Benchmark are provided with an ESG score (the "ESG Score"). This ESG Score may vary between 0 and 100, where the maximum ESG Score of a debt issuer can be 100. A model developed by ACTIAM is used to determine the ESG Score, based on the use of objective ESG data from independent data suppliers. The aim is to realise an ESG Score for the portfolio of the Fund that is substantially higher than that of the Benchmark, with an ambition to have an ESG Score that exceeds the ESG Score of the Benchmark by at least (10) points. The minimum requirement is that the portfolio is composed in such a way that the ESG score of the Fund portfolio will at all times be at least higher than the ESG Score of the Benchmark.

Dividend

Annual payment of dividend.

The Fund is open for subscriptions and redemptions on working days with the exception of public holiday days in Luxembourg and/or the Netherlands.

Risk and Reward Profile

This Fund is in category 3 because of the behavior of the product during the measuring period.

Historical data, such as is used for calculating this indicator, may not be a reliable indication of the future risk profile of this Fund. There is no guarantee that the risk indicator will remain unchanged, it may shift over time. The lowest category of risk does not mean that the investment is risk free.

The following risk factors, not limited, are applicable for the Fund:

Credit Risk: risk that the ability of the issuer to meet its obligation declines substantially during the period when a Fund owns securities of that issuer, or that the issuer will default on its obligations.
