

Fund Profile

ACTIAM Duurzaam Enhanced Index Aandelenfonds Europa invests on a systematical basis in shares of listed European companies. The objective is to match the return of the MSCI Europe Index Net EUR as much as possible, taking into account the exclusion criteria. Investments are only made in shares that meet the General and Additional Exclusion Criteria as formulated by ACTIAM. This results in a deviation (tracking error) with respect to the index. The cash that becomes available due to the exclusion of companies is invested such that the tracking error is minimised. Securities lending is not permitted and currency risk will not be hedged.
