Zwitserleven Impact Wereld Aandelenfonds

Fund Profile

Zwitserleven Impact Wereld Aandelenfonds invests directly and indirectly, via ACTIAM Impact Wereld Aandelenfonds, in liquid equities of listed companies from Europe, North America, Asia and Pacific and emerging countries. The investment objective is to achieve a return that is, on the basis of a three year period, at least equal to the return of the benchmark. In addition to pursuing a financial return objective, it is expressly aimed to also add non-financial value. Especially by investing in companies that actively contribute to the Sustainable Development Goals ("SDGs") such as adopted by the United Nations (UN). At the same time a negative impact on the planetary boundaries is limited, such as specified by Stockholm Resilience Center in Rockström et al. (2009).
