

ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen

(ISIN: NL0014332587)

This fund is managed by ACTIAM N.V., a subsidiary of Athora Netherlands NV.

Objective and investment policy

Objective

The objective of ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen is to approach the return of the MSCI Emerging Markets Index Net EUR, the benchmark ("Index"), as much as possible, while taking into account the applicable sustainability criteria. At the same time, the fund has an objective to invest sustainably.

Investment policy

- The fund aims to contribute to long-term sustainability objectives in the field of the environment and social development and good entrepreneurship.
- ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen invests directly in shares or certificates of companies listed in Emerging Markets and can temporarily invest in Exchange Traded Funds and derivatives.
- The fund is managed on the basis of a systematic investment policy by investing in (certificates of) shares of companies that are part of the Index, and which also comply with Environment, Social and Governance (ESG) criteria. No investments are made in shares of companies that are excluded from investment based on the general and additional exclusion criteria.

- The exclusion of companies leads to a deviation between the return of ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen and the return of the Index. This deviation is minimised by investing the proceeds in shares of companies with similar risk characteristics as of the excluded shares and at the same time meet the applicable ESG criteria.
- In any case, the fund aims to maintain an ESG score that is higher than the Index and a water and CO2-footprint that is lower than that of the Index.
- The fund takes into account the UCITS investment restrictions and does not invest more than 10% in institutions for collective investment.
- The currency risks arising from the portfolio investments are not hedged into euros.
- The asset management of the ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen is outsourced to Amundi Asset Management S.A.

Entry and exit

You can buy or sell shares in this fund on any trading day via Euronext Amsterdam.

Risk and return profile

The indicator is a measure of the volatility of the price and the return potential. This fund invests in equities and therefore its volatility is high.

Historical figures used to calculate the synthetic indicator are not necessarily a reliable reflection of the future risk profile. There is no guarantee that the risk and return category shown will remain unchanged. The category may change. The lowest category does not mean that the investment is without risk.

The following risks are essential to this fund:

- Equity risk: The risk of loss in value due to negative movements in share prices.
- Currency risk: Risk of depreciation in currencies other than euro.
- Active return risk: The active return risk is the risk that the fund's return may deviate from that of the benchmark. Active return risk applies to the fund as a result of the exclusion policy based on the general and additional exclusion criteria.

For a complete overview of the risks inherent in this fund, please refer the section on risk factors in the prospectus.

Charges for this fund

The charges that you pay are used to pay for the costs of operating the fund, including marketing and distribution costs. These charges reduce the potential growth of/return on your investment.

| | |
|--|-------|
| Non-recurring charges that are charged before or after you have invested | |
| Entry charges | 0,11% |
| Exit charges | 0,15% |
| This is the maximum amount that can be deducted from your investment | |
| Charges that are deducted from the fund each year | |
| Ongoing charges figure | 0,13% |
| Charges that are deducted from the fund subject to certain conditions | |
| Performance fee | n/a |

In this context, the fund's entry and exit charges refer to the increases and decreases in the net asset value that are charged on a net basis at the time of entry or exit respectively. These are credited to the fund and compensate for the transaction costs incurred by the fund.

In addition to the abovementioned entry and exit charges charged by the fund, your financial advisor, bank or distributor may, for example, charge additional costs. Please contact them for information about these charges.

A management fee is being charged since 18 May 2020. The percentage of the Ongoing charges is based on the annualized costs for the period from May 18, 2020 until December 31, 2020. The percentage of the Ongoing charges figure may vary from year to year. It excludes portfolio transaction costs incurred by the fund. More information about charges can be found in the prospectus of the fund.

Past performance

Past performance does not guarantee future returns. The stated returns are after deduction of all charges, but before the effects of the income tax to be paid by the investor.

Currency: euro

This fund is in a modified form a continuation of ACTIAM Responsible Index Fund Equity Emerging Markets, which was established on 14 October 2016, and which was only accessible to professional investors. In addition, the fund applied a responsible investment policy, whereas ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen applies a sustainable investment policy

On 18 May 2020 ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen was admitted to listing on Euronext in Amsterdam.
