

FACTSHEET As of 31 August 2023

ACTIAM Sustainable Index Fund Equity North America

Fund Profile

ACTIAM Sustainable Index Fund Equity North America invests in a sustainable manner in shares of listed North American companies. The fund is managed on a systematic basis. The objective is to approach the return of the MSCI North America Index Net EUR as much as possible, taking into account the exclusion criteria. Investments are only made in shares which are not excluded on the basis of the General Exclusion Criteria as formulated by Cardano. This results in a deviation (tracking error) with respect to the index. The cash that becomes available due to the exclusion of companies is invested such that the tracking error is minimised. Securities lending is not permitted and currency risk will not be hedged.

ESG-criteria

All companies are assessed for compliance with minimum requirements for environmental, social and governance policy and behavior using exclusion criteria. The General Exclusion Criteria are policy principles formulated by Cardano for a respectful approach to the environment, people and society. In addition to the current state of affairs, an assessment of these ESG criteria tests the extent to which companies are able and willing to demonstrate adaptation. If this is insufficient in the assessment of Cardano, companies are excluded from investment.

Legend ESG-criteria (Environmental, Social, Governance)

The legend indicates for which % the fund meets the fundamental principles.
