

Fund Profile

ACTIAM Duurzaam Mixfonds Offensief primarily invests in bonds and listed global equities. The investment policy takes account of the sustainability aspects of the investments and responds to market developments and economic prospects. Depending on the outcome, a choice is made for appropriate allocations over bonds and equities. This diversifies the risks, and means that the fund can benefit from economic developments around the world. The fund's objective is to achieve a return at least equal to that of the composite benchmark.
