

Fund Profile

ACTIAM Duurzaam Index Aandelenfonds Pacific invests in a sustainable manner in shares of listed companies in the Pacific (Japan, Singapore, Hong Kong, New Zealand and Australia). The fund is managed on a systematic basis. The objective is to approach the return of the MSCI Pacific Index Net EUR as much as possible, taking into account the exclusion criteria. Investments are only made in shares which are not excluded on the basis of the General Exclusion Criteria as formulated by Cardano. This results in a deviation (tracking error) with respect to the index. The cash that becomes available due to the exclusion of companies is invested such that the tracking error is minimised. Securities lending is not permitted and currency risk will not be hedged.

Performance and risk characteristics

ESG characteristics

Companies and institutions are assessed on social-ethical principles in the areas of people, the environment and society. Failure to comply with the minimum sustainability criteria by the companies and institutions can lead to exclusion, whereby companies and institutions are also assessed on the potential and intention to adapt.

The legend indicates the percentage of the fund's investments which meets the minimum sustainability principles as applied by the management company.
