What is this product?

Type: This product is an investment fund that can in principle be traded daily and has an unlimited maturity.

Objective: The investment objective is to achieve a return at least equal to the iBoxx EUR Green, Social & Sustainability Bonds Corporates (TR), the benchmark. The fund applies sustainable investment objectives by investing in corporate bonds that finance a green, social or sustainable project that meets the requirements of predetermined characteristics as assigned by the issuer and as laid down in the sustainability terms of the project. The Fund has a sustainable investment objective, within the meaning of Article 9 of the Sustainable Finance Disclosure Regulation (SFDR).

- The fund invests in corporate bonds and to a limited extent in debt securities of government-related institutions, agencies or supranational institutions.
- The fund invests primarily in debt securities with a minimum average rating of BBB-. The minimum average rating of the portfolio should be at least 'BBB-'.
- A maximum of 25% of the portfolio may be invested in debt securities that are not part of the benchmark.

- The weighted average duration of the portfolio may deviate by a maximum of 2 years from that of the benchmark.

- The fund may also invest in derivatives, exclusively in swaps, interest rate futures and interest rate options.

Intended retail investor:

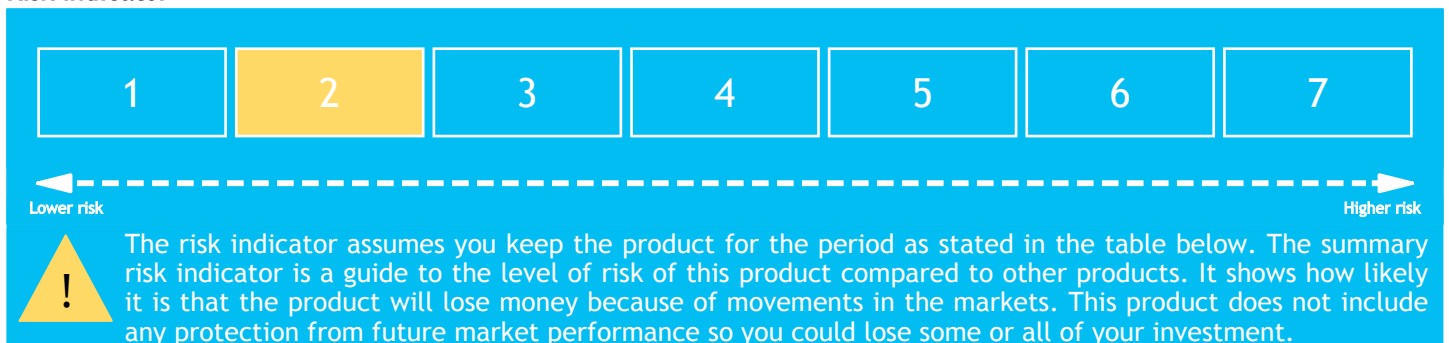

ACTIAM Impact Euro Credit Fund is suitable for private and professional investors who invest for the long term. The investor takes into account that he may lose all or part of the investment. Investing in the fund is suitable for both the basic investor with at least some knowledge of the relevant financial markets and products and the advanced investor. The basic investor is in any case able to make an informed investment decision on the basis of the basic information provided to him or by the legally prescribed documentation.

Product term:

The fund has no end date. ACTIAM N.V. may not unilaterally terminate the fund

What are the risks and what could I get in return?

Risk indicator

We have classified this product as 2 out of 7, which is a low risk class. That means the potential losses on future performance are estimated as low. The product may be exposed to risks such as interest rate risk, credit risk and sustainability risk. This product does not include any protection from future market performance so you could lose some or all of your investment.

Recommended holding period:	4 years		
Example Investment:	€10,000		
		If you exit after 1 year	If you exit after 4 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 4 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	€7,690	€5,300
	Average return each year	-23.08%	-14.69%
Unfavourable	What you might get back after costs	€8,260	€5,300
	Average return each year	-17.44%	-14.69%
Moderate	What you might get back after costs	€10,150	€10,890
	Average return each year	1.54%	2.15%
Favourable	What you might get back after costs	€11,320	€12,100
	Average return each year	13.17%	4.89%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest 10,000.00 €. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and do not include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if ACTIAM N.V. is unable to pay out?

As required by law and for your protection, the Fund's assets are held in a separate company, a custodian. Should ACTIAM N.V. go bankrupt, this will have no direct consequences on the possibility of payment by the fund. If the fund is terminated or liquidated, the assets will be sold and you will receive an appropriate share of the proceeds, but you could lose some or all of your investment. Your loss will not be covered by any investor compensation or guarantee scheme.

What are the costs?

	If you exit after 1 year	If you exit after 4 years
Total costs	€65	€164
Annual cost impact (*)	0.6%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.5 % before costs and 2.1 % after costs.

One-off costs upon entry or exit	If you exit after 1 year	
Entry costs		Up to €18
Exit costs		€18
Ongoing costs taken each year		
Management fees and other administrative or operating costs		€30
Transaction costs		€0
Incidental costs taken under specific conditions		
Performance fees		€0

How long should I hold it and can I take money out early?

Recommended holding period: 4 years

Given the nature of the fund's underlying investments, a minimum holding period of 4 years is recommended. The fund generally invests in risk-bearing assets. Investments in the fund are less suitable for investors with a short-term investment horizon. Exit fees may be charged at the product level.
