The Netherlands Authority for the Financial Markets (AFM) is responsible for supervising the investment institution in connection with this document.

This key information document has been prepared as of January 1, 2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: This product is an investment fund that can in principle be traded daily and has an unlimited maturity.

Objective: The investment objective is to achieve a return at least equal to the composite benchmark. The benchmark consists of: 25% iBoxx EUR Green, Social & Sustainability Bonds Corporates (TR), 65% of MSCI All Country World Index Net EUR and 10% GPR Sustainable Real Estate Index Europe. The fund also promotes environmental and social characteristics, within the meaning of Article 8 of the SFDR, and aims to contribute to long-term sustainability objectives in the field of the environment and social development and good entrepreneurship.

- The fund invests on the basis of a sustainable investment policy and mainly in euro-denominated sustainable corporate bonds of predominantly investment grade quality and in listed global equities. In addition, the fund can, for a limited part, invest in listed European real estate companies and in other investment categories.

- Within the equities investment category investments are in principle made for 50% in the regional ACTIAM Duurzaam Index Aandelenfonds funds and 50% in ACTIAM Impact Wereld Aandelenfonds. The latter fund, in addition to the pursuing a financial return target, expressly intends to also achieve non-financial value, by among others investing in companies that actively

contribute to the realization of the Sustainable Development Goals ("SDGs").

- Companies, governments and institutions in the fund are assessed on their environmental, social and governance performance (ESG criteria). A negative assessment may lead to the exclusion of companies or debtors. In case of doubt, engagement can be initiated to encourage improvement. The investment policy makes use of ESG scores, whereby an ESG score is assigned for all investments of the Fund.

- The currency risks arising from the portfolio investments are not hedged into euros.

Intended retail investor:

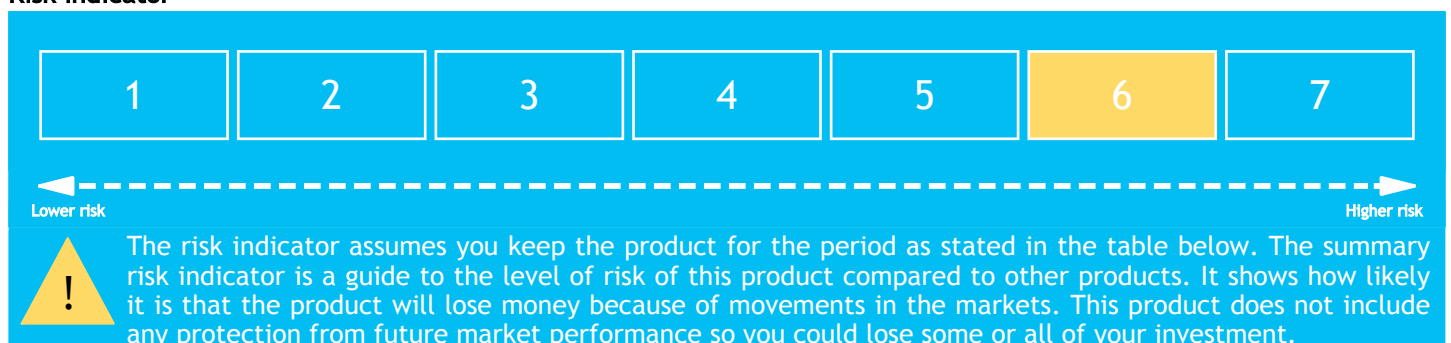

ACTIAM Duurzaam Mixfonds Offensief is suitable for private and professional investors who invest for the long term. The investor takes into account that he may lose all or part of the investment. Investing in the fund is suitable for both the basic investor with at least some knowledge of the relevant financial markets and products and the advanced investor. The basic investor is in any case able to make an informed investment decision on the basis of the basic information provided to him or by the legally prescribed documentation.

Product term:

The fund has no end date. ACTIAM N.V. may not unilaterally terminate the fund.

What are the risks and what could I get in return?

Risk indicator

We have classified this product as 6 out of 7, which is the second highest risk class. That means the potential losses on future performance are estimated as high. The product may be exposed to risks such as equity market risk, credit risk and interest rate risk. Please refer to the prospectus for more information. This product does not include any protection from future market performance so you could lose some or all of your investment.

Recommended holding period:		5 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	€0	€0
	Average return each year	-100.00%	-82.10%
Unfavourable	What you might get back after costs	€5,390	€3,880
	Average return each year	-46.06%	-17.26%
Moderate	What you might get back after costs	€10,600	€8,370
	Average return each year	6.02%	-3.50%
Favourable	What you might get back after costs	€13,910	€15,360
	Average return each year	39.08%	8.96%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest 10,000.00 €. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and do not include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if ACTIAM N.V. is unable to pay out?

As required by law and for your protection, the Fund's assets are held in a separate company, a custodian. Should ACTIAM N.V. go bankrupt, this will have no direct consequences on the possibility of payment by the fund. If the fund is terminated or liquidated, the assets will be sold and you will receive an appropriate share of the proceeds, but you could lose some or all of your investment. Your loss will not be covered by any investor compensation or guarantee scheme.

What are the costs?

	If you exit after 1 year	If you exit after 5 years
Total costs	€89	€316
Annual cost impact (*)	0.9%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -2.8 % before costs and -3.5 % after costs.

One-off costs upon entry or exit	If you exit after 1 year
Entry costs	Up to €15
Exit costs	€10
Ongoing costs taken each year	
Management fees and other administrative or operating costs	€40
Transaction costs	€25
Incidental costs taken under specific conditions	
Performance fees	€0

How long should I hold it and can I take money out early?

Recommended holding periode: 5 years

Given the nature of the fund's underlying investments, a minimum holding period of 5 years is recommended. The fund generally invests in risk-bearing assets. Investments in the fund are less suitable for investors with a short-term investment horizon. Exit fees may be charged at the product level.

How can I complain?

The customer can complain about the product, the activities of the product's developer or the party selling the product/providing advice by contacting ACTIAM via our website.
