Look on www.actiam.com or call for more information +31 (0)10 206 1300.

The Netherlands Authority for the Financial Markets (AFM) is responsible for supervising the investment institution in connection with this document.

This key information document has been prepared as of January 1, 2023.

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type: This product is an investment fund that can in principle be traded daily and has an unlimited maturity.

Objective: The objective of ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen is to approach the return of the MSCI Emerging Markets Index Net EUR, the benchmark ("Index"), as much as possible, while taking into account the applicable sustainability criteria. The fund also promotes environmental and social characteristics, within the meaning of Article 8 of the SFDR, and aims to contribute to long-term sustainability objectives in the field of the environment and social development and good entrepreneurship.

- ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen invests directly in shares or certificates of companies listed in Emerging Markets and can temporarily invest in Exchange Traded Funds and derivatives.

- The fund is managed on the basis of a systematic investment policy by investing in (certificates of) shares of companies included in the Index, and in addition to that comply with Environment, Social and Governance (ESG) criteria. No investments are made in shares of companies that are excluded from investment based on the general exclusion criteria.

- The exclusion of companies leads to a deviation between the composite returns of the fund and the return of the Index. This deviation is minimised by investing the proceeds in shares of companies with similar risk

characteristics as of the excluded shares and at the same time meet the applicable ESG criteria.

- In any case, the fund aims to maintain an ESG score that is higher than the Index and a water and CO2-footprint that is lower than that of the Index.

- The fund takes into account the UCITS investment restrictions and does not invest more than 10% in institutions for collective investment.

- The currency risks arising from the portfolio investments are not hedged into euros.

- The fund pays out a cash dividend at least once a year.

Intended retail investor:

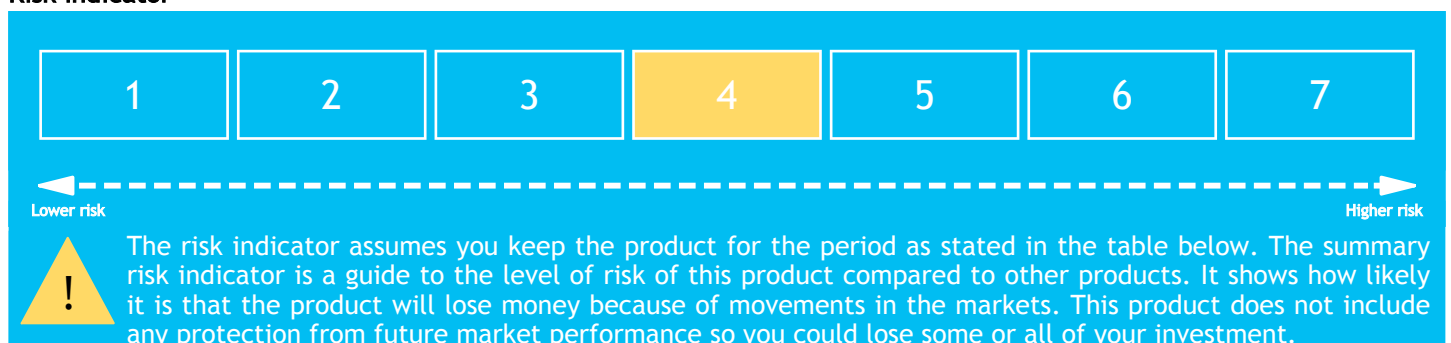

ACTIAM Duurzaam Index Aandelenfonds Opkomende Landen is suitable for private and professional investors who invest for the long term. The investor takes into account that he may lose all or part of the investment. Investing in the fund is suitable for both the basic investor with at least some knowledge of the relevant financial markets and products and the advanced investor. The basic investor is in any case able to make an informed investment decision on the basis of the basic information provided to him or by the legally prescribed documentation.

Product term:

The fund has no end date. ACTIAM N.V. may not unilaterally terminate the fund

What are the risks and what could I get in return?

Risk indicator

We have classified this product as 4 out of 7, which is a medium risk class. That means the potential losses on future performance are estimated as medium. The product may be exposed to risks such as equity market risk, currency risk and active return risk. This product does not include any protection from future market performance so you could lose some or all of your investment.

Recommended holding period:		5 years	
Example Investment:		€10,000	
		If you exit after 1 year	If you exit after 5 years
Scenarios			
Minimum	There is no minimum guaranteed return if you exit before 5 years. You could lose some or all of your investment.		
Stress	What you might get back after costs	€2,550	€2,630
	Average return each year	-74.48%	-23.43%
Unfavourable	What you might get back after costs	€7,450	€3,750
	Average return each year	-25.49%	-17.82%
Moderate	What you might get back after costs	€10,650	€13,570
	Average return each year	6.51%	6.29%
Favourable	What you might get back after costs	€16,400	€21,410
	Average return each year	64.04%	16.45%

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest 10,000.00 €. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. The figures shown include all the costs of the product itself, and do not include the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What happens if ACTIAM N.V. is unable to pay out?

As required by law and for your protection, the Fund's assets are held in a separate company, a custodian. Should ACTIAM N.V. go bankrupt, this will have no direct consequences on the possibility of payment by the fund. If the fund is terminated or liquidated, the assets will be sold and you will receive an appropriate share of the proceeds, but you could lose some or all of your investment. Your loss will not be covered by any investor compensation or guarantee scheme.

What are the costs?

	If you exit after 1 year	If you exit after 5 years
Total costs	€55	€147
Annual cost impact (*)	0.5%	0.2% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.5 % before costs and 6.3 % after costs.

One-off costs upon entry or exit	If you exit after 1 year	
Entry costs		Up to €15
Exit costs		€23
Ongoing costs taken each year		
Management fees and other administrative or operating costs		€13
Transaction costs		€4
Incidental costs taken under specific conditions		
Performance fees		€0

How long should I hold it and can I take money out early?

Recommended holding periode: 5 years

Given the nature of the fund's underlying investments, a minimum holding period of 5 years is recommended. The fund generally invests in risk-bearing assets. Investments in the fund are less suitable for investors with a short-term investment horizon. Exit fees may be charged at the product level.

How can I complain?

The customer can complain about the product, the activities of the product's developer or the party selling the product/providing advice by contacting ACTIAM via our website.
