1 Executive Summary

This Policy explains the framework that ACTIAM has put in place when it selects and reviews its venues and or brokers where it places or executes orders in financial instruments. ACTIAM is not in any way affiliated with any broker or venue, which ensures full flexibility for implementing the ACTIAM Venue and Broker Selection & Review policy. with regard to how ACTIAM

ACTIAM is an Alternative Investment Fund Manager (“AIFM”) licensed by the AFM. Based on its license it is also allowed to provide certain ‘MiFID services’, being: portfolio management, investment advice and reception and transmission of orders. Best Execution obligations under MiFID2 do not apply to ACTIAM. However, has voluntarily ACTIAM implemented the best execution requirements of MiFID2.

1.1 Rationale

ACTIAM has the duty to make sure that it consistently takes all sufficient steps to obtain the best possible results for ACTIAM and its clients when executing orders (“Best Execution”). When ACTIAM does not execute the order itself but transmits the order to a broker, both ACTIAM and the broker are responsible for Best Execution. ACTIAM will oversee if the broker meets the quality of execution expected. A detailed description of ACTIAM’s order execution is described in the ACTIAM Order Handling Policy.

In order to ensure Best Execution for its clients, ACTIAM periodically reviews and monitors its Execution Venues. This Policy sets forth the framework it uses to that end and the transparency requirements it fulfills.

1.2 Scope

Activity scope: this Policy applies when ACTIAM, as part of its fund management or discretionary investment management activities uses brokers and execution venues to carry out order execution or order transmission services pertaining to financial instruments on behalf its clients.

Client scope: this Policy applies to brokers and execution venues used for trades of clients classified as Professional Investor as defined by the relevant regulations.

Broker & execution venue scope: any broker or execution venue that ACTIAM is allowed to use for order execution under this Policy and under where applicable under the respective client mandate.

Entity scope: this Policy applies to ACTIAM N.V. (“ACTIAM”).

Financial Instruments in scope: types of financial instruments covered under this Policy are all financial instruments traded by ACTIAM which ACTIAM divided into five categories in its Order Handling Policy:

- Equity and Equity like instruments
- Fixed Income instruments, including bonds, repo and money market instruments
- Derivatives, including Exchange Traded Derivatives (ETD) or over the counter (OTC)/off-exchange derivatives
- Investment Funds

- Other Instruments

The scope is limited to transactions in those financial instruments that ACTIAM and its clients have agreed on in the context the respective mandates.

Service Scope: this Policy sets forth how ACTIAM monitors and controls the effectiveness and quality of the brokers and execution venues it uses.

1.3 Policy Application

This Policy applies to ACTIAM when it uses brokers and execution venues to execute trades or transmit orders in financial instruments on behalf of its clients.

1.4 Related Policies

A non-exhaustive list of policies that relate to and should be read in conjunction with this Policy are set out below. If in doubt, please contact the ACTIAM Compliance officer.

- Order Handling Policy
- Conflicts of Interest Policy
- Inducements Policy
- Record Keeping (regarding distributors, target markets etc. and rationale)

2 List & Selection Process

2.1 Approved Broker and Execution Venue List

ACTIAM Treasury & Execution maintains an Approved Broker and Execution Venue list. This list contains all brokers and execution venues that are approved by ACTIAM for use to execute orders on behalf of ACTIAM's clients.

2.2 Selection Process

When selecting an execution venue or broker ACTIAM will consider, besides the execution factors mentioned in the Order Handling Policy, the following relevant factors (in no particular order):

- Confidentiality
- Access to primary deal flow
- Market intelligence
- Reputation and financial reliability
- Quality of the execution and electronic and/or algorithmic offering

When selecting a broker or execution venue for the execution of any particular trade ACTIAM considers many execution factors for each individual investment decision.

ACTIAM will consider the following execution factors (in no particular order):

- Price or spread

- Transaction cost, including explicit costs such as fees, commissions and tax, and implicit costs such as market impact
- Speed of execution
- Likelihood of execution, completion, clearing and settlement
- Liquidity
- Creditworthiness of the broker or execution venue
- And any other consideration relevant to the selection of a broker or execution venue

3 Review process

3.1 Regular & semi-annual assessment

- ACTIAM reviews its Approved Broker and Execution Venue list by means of Bloomberg Transaction Cost Analysis (BTCA) on quantitative measures and at least twice a year, in June and in December, on both quantitative and qualitative measures. ACTIAM's policy is to maintain a selection of brokers and execution venues that meet the requirement deemed necessary to obtain Best Execution on a consistent basis when transmitting and executing orders.

- Regular assessment:

Trade executions are captured in BTCA and are monitored regularly. This is done at least on a weekly basis, but often BTCA reports are monitored on a trade by trade basis. Monthly reports, Year to Date reports and End of Year reports are communicated internally to all relevant users. BTCA reports are used to review the quality of the executions received from brokers and execution venues against an internal benchmark.

- Semi-annual assessment:

Executions from brokers and execution venues are assessed on both quantitative and qualitative measures. Quantitative assessment is monitored by quality review from the regular assessment.

Qualitative assessment measures take the following execution factors (equal weight) into account:

- Quality of Sales/Trading Service
- Quality of electronic and/or algorithmic offering
- Quality of market intelligence
- Quality of settlement process based on Back Office input with regard to first time right

3.2 Semi-annual review process

The results of the Regular assessments and Semi-annual assessment are bi-annually combined during the semi-annual review process (Regular assessment 60% + Semi-annual assessment (40%)). Both ACTIAM Treasury & Execution and ACTIAM Compliance take part in this semi-annual review process. The outcome of this semi-annual review process may lead to changes in the Approved Broker and Execution Venue list. The review process may be initiated more often by ACTIAM Treasury & Execution or at the request of ACTIAM Compliance if so deemed desirable.

4 Specific Instructions & Force Majeure

4.1 Specific Instructions

If ACTIAM receives a specific instruction from a client which broker or execution venue should be used to execute an order ACTIAM will execute accordingly where reasonably possible. For the avoidance of doubt, as AIFM, ACTIAM does not provide execution only services for its clients.

4.2 Force Majeure

In the case of exceptional market circumstances in relation to the markets in general or a specific financial instrument, ACTIAM may deviate from this Policy in order to achieve the best possible result for the client.

5 Policy Assurance Methods

5.1 Policy Adherence Monitoring & Publications

ACTIAM has implemented the semi-annual review process to monitor the (performance of the) execution venues and brokers. ACTIAM Compliance performs semi-annual reviews of the level of compliance with applicable trading policies, including this Policy.

Annually ACTIAM Compliance will publish (jointly with its publication under the Order Handling Policy) a top five execution venues (including corresponding trading volumes) per financial instrument category separately for each client group:

- Non-professional investors
- Professional investors
- Securities Financing Transactions

6 Governance

The governance section defines the roles and responsibilities of individuals, groups, or committees in implementing, maintaining, reporting, and assuring compliance with the requirements of the policy. Each individual, group, or committee is documented with their specific associated roles and responsibilities listed.

6.1 Compliance

ACTIAM Compliance will be responsible for monitoring this Policy. Adherence to the Policy will be tested by ACTIAM Compliance on a regular basis also taking into account the effectiveness of the venues where orders are executed at or transmitted to.

6.2 Treasury & Execution desk

ACTIAM Treasury & Execution is responsible for the correct application of this Policy and for conducting an periodical review on the Policy and its validity.

ACTIAM Treasury & Execution is responsible for keeping this Policy up to date and for aligning with the stakeholders mentioned under “Consultation”. Annually ACTIAM Treasury & Execution will align with ACTIAM Compliance whether this Policy is still up-to-date and report thereon to the RMC -ORC MT AM.

6.3 Effective Date & Amendments

This Policy enters into effect as per 17 December 2018 and remains in effect until replaced by an amended version approved by RMC - ORC MT AM.

After approval of an amended version of this Policy ACTIAM Treasury & Execution will inform Business Development and Sales and Marketing to inform clients and update the website, respectively.
