

FACTSHEET

ACTIAM Verantwoord Index Aandelenfonds Wereld

Fund Profile

ACTIAM Verantwoord Index Aandelenfonds Wereld investes in shares of listed companies in Europe, North America and the Pacific by physically replicating the MSCI World Index Net EUR. The objective is to match the return of the index. The fund exclusively investes in shares that meet the ESG criteria, as formulated by ACTIAM. This results in a deviation (tracking error) with respect to the index. The cash that becomes available due to the exclusion of companies is invested such that the tracking error is minimized. Securities lending is not permitted and currency risk will not be hedged.
